RESILIENCE

**Queer Professors
from the Working Class**
**Kenneth Oldfield and
Richard Gregory Johnson III,**
editors

*First collection of essays by queer
scholars with working-class back-
grounds.*

Academia can be overwhelm-
ingly foreign and hostile to those
who have poor or working-class
backgrounds. For people who are
from the working class and also
queer, the obstacles to earning a
graduate degree may prove insur-
mountable. Frequently discour-
aged from attending college in
the first place, these students
often struggle to pay for their
education while they simultane-
ously battle prejudice and
discrimination because of their
sexual orientation and blue-col-
lar backgrounds. *Resilience* offers
inspiring personal stories of those
who made it: thirteen professors
and administrators provide their
moving accounts of struggle,
marginalization, and triumph in
the accomplishments that their
parents, guidance counselors, and
sometimes even they themselves
would have thought out of reach.

Kenneth Oldfield is Professor
Emeritus of Public Administra-
tion at the University of Illinois at
Springfield. **Richard Gregory
Johnson III** is Assistant Professor
of Educational Leadership and
Policy Studies at the University
of Vermont.

New in Paper

**QUEER TRANSITIONS
IN CONTEMPORARY
SPANISH CULTURE**
From Franco to la Movida
Gema Pérez-Sánchez

*Offers a sustained analysis of both
high and low queer culture and its
connections to cultural and political
processes in Spain.*

Gema Pérez-Sánchez argues
that the process of political and cultural transition from
dictatorship to democracy in Spain can be read allegorically
as a shift from a dictatorship that followed a self-loathing
“homosexual” model to a democracy that identified as a
pluralized “queer” body. Focusing on the urban cultural
phenomenon of *la movida*, she offers a sustained analysis of
high queer culture, as represented by novels, along with an
examination of low queer culture, as represented by comic
books and films. Pérez-Sánchez shows that urban queer
culture played a defining role in the cultural and political
processes that helped to move Spain from a premodern,
fascist military dictatorship to a late-capitalist, parliamentary
democracy.
